Education:

University of Wisconsin - Madison *Expected Graduation: May 2027*

Bachelor of Science: Data Science & Computer Science | Minor: Consulting **GPA: 3.8/4.0**

- Related Courses: Object-Oriented Programming, Project Management, Algorithms, Databases, Management Consulting, Data Structures, Graphs & Hash Tables, Software Engineering (Git), Data Visualization & Modeling, Operating Systems, Intro to AI
- **Activities:** Student Athlete, University of Wisconsin Competitive USAC Climbing Team

Experience:

Colleague AI *Prague, Czech Republic*

Software Engineering Intern *Sept 2026 - Present*

- Engineered 3+ finance AI agents in Copilot Studio with Power Automate, REST APIs and Dataverse, cutting task time ~40%.
- Designed a reusable LLM architecture on Azure AI (RAG, API pipelines, RBAC) that cut new-agent build time by ~35%.
- Built a Python/JSON test harness running 30+ end-to-end cases per agent, catching 20+ defects pre-release via GitHub PRs.
- Led 5+ live demos and deployment guides in Agile sprints (Jira), driving Azure AI and Copilot Studio adoption across 3 teams.

Equinix *Hong Kong*

Technical Sales Intern *Jun - Aug 2026*

- Built an Agentic Opportunity Discovery Engine in Python with 4 LLM agents, surfacing 150+ qualified pipeline opportunities.
- Enriched Salesforce with 2,700+ IT leads across 1,000+ APAC firms via ZoomInfo/6sense, deduping with Pandas (95% match rate).
- Led bilingual outreach to 400+ AI targets in Japan, South Korea, Mainland China, HK & Singapore, meeting Hanson Robotics' CEO.
- Evaluated 5 acquisition platforms and 6 verticals using SQL and Excel analysis, cutting SDR lead-research time by ~30%.

The Hong Kong Jockey Club *Hong Kong*

Sports Data Analytics Intern *Jul - Aug 2025*

- Built Python (Pandas, NumPy) and SQL pipelines processing 50K+ records for year-end CARE and Sports Development analyses.
- Presented data insights to NBA representatives and district sports organizations, informing 3 program recommendations.
- Automated recurring reports with Matplotlib dashboards, cutting report preparation time by ~50%.
- Supported the 2025 Basketball Betting Bill launch with data research; prototyped NLP analysis of problem gambling trends.

FCC Analytics *Hong Kong*

Quality Assurance Summer Intern *May - Jun 2025*

- Executed 200+ functional and regression test cases on a pre-launch fraud management platform, validating data with SQL.
- Isolated and documented 40+ defects incl. critical backend bugs, working with engineers to ship fixes within 48 hours.
- Redesigned the platform UI in HTML/CSS/JavaScript, streamlining 5 core user workflows for end users.
- Practiced the full agile SDLC (Git, code review, sprints) in the RegTech and Anti-Money Laundering compliance space.

Hong Kong Student Association *(External Co-President)* *May 2024 - Present*

- Spearheaded outreach and managed 5 major events with cultural clubs and International Student Services, boosting engagement.
- Set organizational standards, led executive meetings, and delegated workstreams; led formal external partnerships.
- Promoted Hong Kong culture to 500+ students via events and social media, growing club membership by ~30%.

Projects:

Crux - Social Climbing & Conditions App | *Python, FastAPI, PostgreSQL/PostGIS, React, TypeScript, Docker* *Sept 2026 - Present*

- Building a full-stack social app showing who is climbing at indoor gyms and outdoor crags to find partners and log sends.
- Engineered a 0-100 "Conditions Score" pipeline: Open-Meteo weather, sun/shade and rock-type rules (24-48h sandstone lockout).
- Developing a FastAPI REST backend with PostGIS geospatial queries, JWT auth and OpenBeta route data ingestion.
- Planning social features (friends, activity feed, partner finder) to match climbers by grade, location and availability.
- Building a React + TypeScript Leaflet map and progression dashboard; pytest suite, Dockerized, deploying to Render/Vercel.

Skills:

- **Languages:** English (Native), Cantonese (Native), Mandarin (Native)
- **Coding Languages:** Python, Java, JavaScript, TypeScript, SQL, HTML/CSS, R
- **Frameworks/ Libraries:** FastAPI, React, REST APIs, Pandas, NumPy, Matplotlib, OpenCV, pytest
- **Developer Tools:** Git/GitHub, Docker, PostgreSQL, AWS, Google Cloud, Azure, Power Platform, Linux, Jira
- **Technical & Professional:** Google AI Professional Certificate, Salesforce, ZoomInfo, 6sense, Sales Navigator, IT Infrastructure
