Education:

University of Wisconsin - Madison *Expected Graduation: May 2027*

Bachelor of Science: Data Science & Computer Science | Minor: Consulting **GPA: 3.8/4.0**

- Related Courses: Object-Oriented Programming, Project Management, Algorithms, Databases, Management Consulting, Data Structures, Graphs & Hash Tables, Software Engineering (Git), Data Visualization & Modeling, Operating Systems, Intro to AI
- **Activities:** Student Athlete, University of Wisconsin Competitive USAC Climbing Team

Experience:

Colleague AI *Prague, Czech Republic*

Project Management Intern - AI & Finance Automation *Sept 2026 - Present*

- Directed build of 3+ enterprise AI agents for finance workflows: accounts payable, reconciliation, and cash-flow reporting.
- Defined business logic and API integrations for ERP/general-ledger data, invoice approvals, and variance analysis with audit trails.
- Designed an LLM reference architecture (RAG, API pipelines, RBAC) enforcing segregation of duties and data-access controls.
- Presented live demos to finance stakeholders; authored risk controls and 30+ test cases per agent for audit compliance.

Equinix *Hong Kong*

Sales Development Intern - Market Strategy & Analytics *Jun - Aug 2026*

- Led bilingual outreach to 400+ AI targets in Japan, South Korea, Mainland China, HK & Singapore, meeting Hanson Robotics' CEO.
- Enriched Salesforce with 2,700+ IT leads across 1,000+ APAC firms via ZoomInfo and 6sense to build a top AI target watchlist.
- Built an Agentic Opportunity Discovery Engine with 4 AI agents to automate pipeline generation and uncover whitespaces.
- Benchmarked 5 acquisition platforms and 6 key verticals to size APAC-AMER cross-regional growth and prioritize accounts.

The Hong Kong Jockey Club *Hong Kong*

External Affairs Intern - Policy & Data Analytics *Jul - Aug 2025*

- Supported the 2025 Basketball Betting Bill passage through policy and regulatory research and responsible gambling strategy.
- Analyzed year-end CARE and Sports Development data (50K+ records) in Python, SQL and Excel to deliver insights to leadership.
- Presented findings to NBA representatives and district sports organizations, turning complex data into key deliverables.
- Researched problem gambling trends and AI market solutions to refine responsible-gaming risk strategy and controls.

FCC Analytics *Hong Kong*

Quality Assurance Intern - Fraud & AML Compliance *May - Jun 2025*

- Executed QA testing on a pre-launch enterprise fraud management platform, isolating defects to improve system performance.
- Gained hands-on exposure to RegTech fraud detection and Anti-Money Laundering (AML) compliance workflows.
- Partnered with engineers to troubleshoot critical backend bugs and validated transaction data with SQL.
- Redesigned the platform UI to improve the end-user experience for compliance analysts.

Hong Kong Student Association *(External Co-President)* *May 2024 - Present*

- Spearheaded outreach and managed 5 major events with cultural clubs and International Student Services, boosting engagement.
- Set organizational standards, led executive meetings, and delegated workstreams; led formal external partnerships.

Money Smart HK *Hong Kong*

Business Analytics Summer Intern *Jun - Jul 2024*

- Analyzed digital loyalty programs in the Hong Kong market to identify key trends and competitive business margins.
- Built financial models in Excel to support core operations and deliver executive briefings.
- Provided data insights for digital marketing campaigns, using market research to optimize client strategies.

Projects:

Crux - Data-Driven Climbing Conditions App | *Python, FastAPI, PostgreSQL, React, TypeScript* *Sept 2026*

- Engineered a 0-100 "Conditions Score" model combining weather data, sun/shade, and rock-type rules for every crag.
- Built a data pipeline ingesting Open-Meteo weather and OpenBeta route data into PostgreSQL/PostGIS for geospatial queries.
- Developing a FastAPI backend and React/TypeScript dashboard tracking progression analytics: grade pyramid and send trends.
- Designing user accounts, a friends activity feed, and a partner finder to connect climbers at gyms and outdoor crags.

Skills:

- **Languages:** English (Native), Cantonese (Native), Mandarin (Native)
- **Financial & Analytical:** Financial Modeling (Excel), Business Analytics, Variance Analysis, Market Research
- **Coding Languages/ Libraries:** Python, SQL, R, Java, JavaScript, Pandas, NumPy, Matplotlib
- **Tools:** Excel, PowerPoint, Salesforce, ZoomInfo, 6sense, Sales Navigator, Git/GitHub, AWS, Google Cloud, Azure
